Authorized Personnel _____ **Date** _____

Per the Plan, Article VIII Motor Bus Apportionment Section 805 Determination of Distance: The Apportionable Fees of a Fleet that is involved in a Pool may be calculated using Apportionment Percentages or, in the alternative, at the option of the Applicant, the Apportionment Percentage may be calculated by dividing (a) the scheduled route distance operated in the Member Jurisdiction by the Vehicles in the Pool by (b) the sum of the scheduled route distances operated in all the Member Jurisdictions by the Vehicles in the Pool. Scheduled route distances shall be determined from the farthest point of origination to the farthest point of destination covered by the Pool. If a Registrant has used this method to register its Fleet initially for a Registration Year, it shall also use this same method to register any Apportionable Vehicles it may add to its Fleet during the year.
