

# "Why Thumb Bands?"

Auto accidents involving cell phones are responsible for 1.6 million accidents per year, causing over 1/2 million injuries and 6,000 deaths. Of those, about 200,000 are caused by texting while driving!

Many States have passed or will pass legislation making use of cell phones and "texting" illegal while driving a motor vehicle. These bands will be a welcome, low-cost, visual aid to promote safe driving!

Silicone Thumb Bands are "wearable reminders" of the hazards of texting while driving, and give a visual reinforcement to curb this dangerous and illegal activity.
